

PCRC Safe School

Implementing Zero Tolerance to School Attack

Practising direct connection of schools to the community, Police, PCRC and other approved stakeholders.

-  No more: I don't have anyone to send school safety intelligence to.
-  No more: I don't know which number to call during a school emergency.
-  No more confusion about which school has an emergency and needs help.
-  No more forgetting the number to call during an emergency because of panic, confusion and fear during a sudden crime attack.

“Never allow attacks to happen to schools again.
Protect our children.”

PCRC Safe School Implementing the Inspector-General of Police Zero Tolerance to School Attack Using BOOSTAR Technologies as One of the Tools

School security problems and how BOOSTAR helps solve them

! THE PROBLEM		✓ HOW BOOSTAR HELPS	
1	 Loss of Intelligence People see threats around schools but do not know who to report to.		BOOSTAR allows parents, neighbours, staff and community members to report threats early through PCRC Safe School.
2	 Forgetting Emergency Numbers During Panic In emergencies, fear and confusion can delay response.		BOOSTAR helps users quickly access 112 and the Police Control Room number for their location.
3	 Suspicious Movement Around Schools Bandits, gangs, strange persons and loitering can threaten school safety.		BOOSTAR enables early reporting of suspicious movement, gangs, drugs, intrusion and strange persons for quick preventive action.
4	 Weak School-to-Police Connection Schools may not be directly connected to security responders.		BOOSTAR and BOOSTAR-M connect schools, PCRC, Police, school security and approved officers for coordinated response.
5	 No Personalised School SOS School security officers need a direct way to raise urgent alerts.		BOOSTAR-M enables school security to send personalised SOS alerts directly for urgent response.
6	 Poor School Security Data Without proper school data, planning and response can be slow.		BOOSTAR-M supports PCRC Safe School database registration and helps security teams know the correct school identity and location.

**Early Report + Early Response
= Safer Schools**

BOOSTAR Technologies support early intelligence, emergency connection, school registration and coordinated response to help prevent school attacks.

SEE SOMETHING? **REPORT IT!**

Use BOOSTAR to report safety concerns around the school.

PCRC National Safe School Registration (Database), School SOS, Receive Intelligence from the Community

BOOSTAR-M supports school registration, alert management, operational monitoring and response coordination.

Key Benefits

Register schools into the PCRC Safe School database

Receive community intelligence and monitor school alerts

Support school security officers with School SOS coordination

Why Schools Must Activate **BOOSTAR-M**

Security Reasons Every School Must Download and Activate PCRC BOOSTAR-M

- 

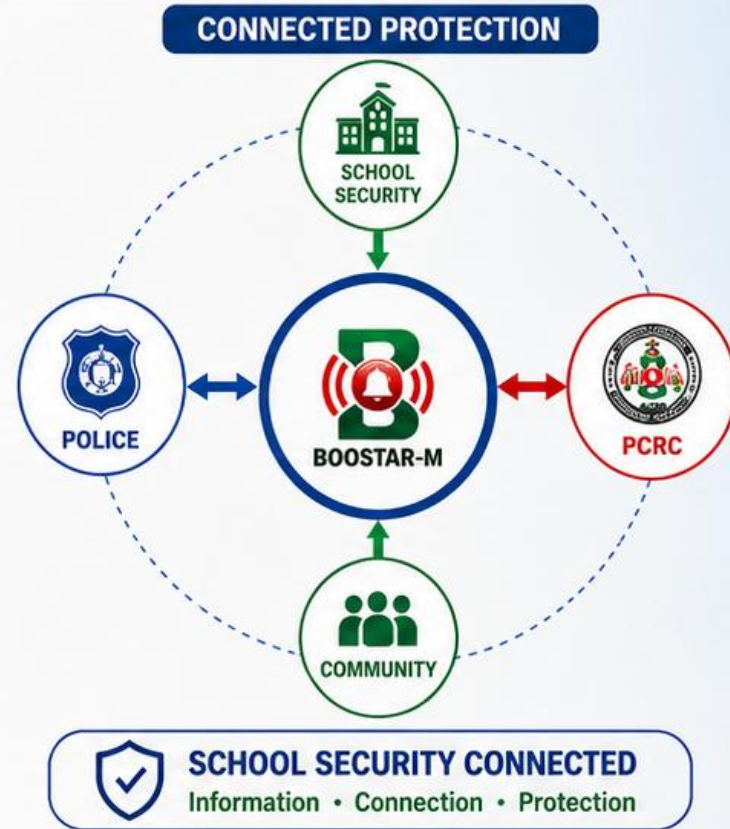

Quick SOS Alert:
School security can send and receive emergency alerts immediately.
- 

Direct Police Connection:
It connects the school to the Police, PCRC and other approved security officers.
- 

Early Warning:
Schools can receive information about suspicious movements, cultism, drugs, kidnapping threats and other dangers.
- 

Easy School Location:
The school's correct name and location help security officers respond without delay.
- 

Better Protection:
It helps the school, community, Police and PCRC work together to protect students and staff.

Download and activate **PCRC BOOSTAR-M** today.
Early information and quick response can save lives.
